This is 11 pages. The full catalogue is 1,206.

You have just read **Section 02, Front axle** — the whole section, 4 diagrams and 331 numbered parts: struts and shock absorbers, springs and top mounts, wishbones and their bushes, the anti-roll bar, drive shafts with their joints and boots, and the wheel bearing housing — drawn twice, once for the 1979–1981 car and once for the 1981–1993 one, so you work from your own car's layout. Every diagram is followed by its own parts list. The Mk1 Golf Cabriolet Master Parts Catalogue is 1,206 pages of exactly that: every VW factory parts diagram for the Karmann-built Cabriolet — the Rabbit Convertible in North America — 1979–1993, deduplicated and organised by VW group code. Each diagram carries its engine and year applicability, so you can tell whether a part fits your car before you order it.
